

1. PASSING POINTS

A. Heat race winners receive 55 points, 52 points are awarded for 2nd, 49 for 3rd, and so on . In addition, competitors are awarded 1.5 points for each spot they move forward from their assigned starting spot. (the assigned starting spot is where they were on the original green flag start). So if someone starts 8th in their heat and finishes 2nd they earn 61 points (52 for finishing 2nd plus 9 for moving up six spots).

B. The top 16 drivers in total points from the combined heats transfer to the A-Main. The top 12 will make up the front 6 rows. The high point earner starts with an invert of 8,10 or 12 in the A-Main. Cars 13,14, 15 and 16 will start in the 7th & 8th rows of the feature straight up according to points earned. The invert is determined by a draw. Tie point totals are decided by which driver received those points first (someone in heat 2 would be ahead of someone in heat 5).
